

Email Marketing Automation Workflow - TITAN GYM

CODTECH Internship - Task 2

Objective

Design an automated email sequence to engage new subscribers, nurture leads, promote membership offers, and collect customer feedback.

Workflow

1. New user signs up through the website or landing page.
2. Immediately send a Welcome Email.
3. After 2 days, send a Fitness Tips Email.
4. After 5 days, send a 20% Membership Discount Offer.
5. After 7 days, send a Success Stories Email.
6. After 10 days, send a Feedback Request Email.

Expected Benefits

- Improve customer engagement
- Increase membership conversions
- Build trust through educational content
- Encourage repeat interactions
- Collect valuable customer feedback

Conclusion

This workflow demonstrates how email automation can deliver timely, personalized communication while reducing manual effort and improving marketing effectiveness for TITAN GYM.
